BEAUFORT

Mooring lines polyester

Luxury mooring lines

Langman Ropes Beaufort is a double braided polyester rope. Depending on the diameter, the cover is 16-, 24- or 32-braided. The core is 12-strand braided. Due to this construction, this rope is good spliceable and very flexible. This type of mooring rope is used a lot as luxury mooring lines.

Features:

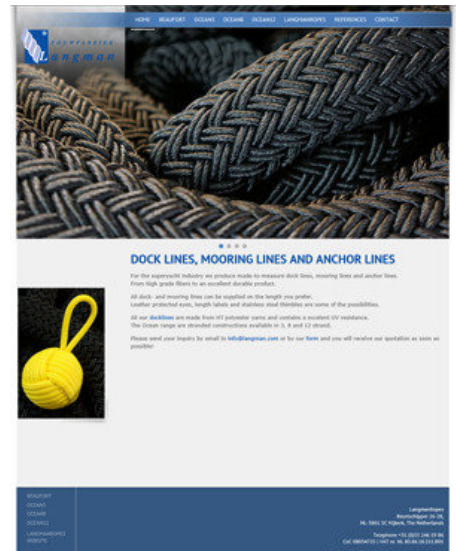

- > Flexible and good spliceable
- > High tenacity polyester
- > Excellent UV-resistant
- > Robust and luxurious look
- > High abrasion resistant
- > Water absorption from 0,5 to 2%.
- > Non floating, Specific gravity 1.38.

Finishing:

- > Buying unit: per coil of 200mtr or on cutted lengths
- > With eye, loop or optional with leather or polyester canvas cover

Colours:

- black, white, navy, brass, carbon look and silver,
- other colours available on request!

Alternatives:

- Ocean12 luxury mooring lines, 12-strand braided polyester
- Ocean8 luxury mooring lines, 8-strand braided polyester

Beaufort luxury mooring lines, double braided polyester rope
