Number of turns lock to lock of steering wheel as per pump & cylinder selection		Type of pumps		
		06.02.00 +) HTP 2010R with lock valve	06.02.00 ++ HTP 3010R with lock valve	06.02.0078 HTP 4210R with lock valve
Type of cylinders	06.01.0099 OBC225 1026 Nm	8.8	5.8	4.1
	06.01.0100 OBC275 788 Nm	6.8	4.4	3.2

A single cylinder can operate a twin outboard engine installation. If both propellers rotate in the same direction, the total engine output may not exceed the maximum capacity of the selected cylinder. If the engines have left-handed (counter-rotating) propellers, the total output may be twice the rated capacity of the chosen cylinder.
